

MUSIC PRODUCTION COURSE

LOCATION: Located in the pine-clad green hills of San Miguel, in one of the most beautiful parts of northern Ibiza, Sound Farm Studios (S.F.S) is a video and sound design facility built to state of the art perfection.

.Front view of SFS

An endless view of the horizon and liquid golden sunsets give space and tranquility for artists, non-artists and technicians coming from different fields to interact and to create. SoundFarmStudio is only 10 minutes away from Benirras, one of the most beautiful and legendary beaches on the island. With its white sands and crystal clear turquoise waters, this beach is the perfect place to go to and relax and is one of the finest in the Mediterranean.

CONCEPT:

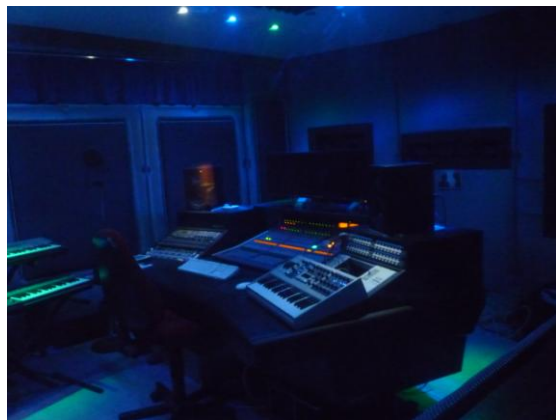

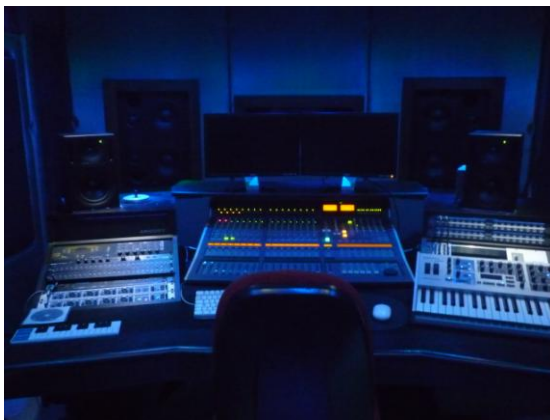

At SoundFarmStudios Ibiza it's all about sound. Recording it, listening to it, playing it, editing it and making it come to life. SFS Ibiza is a fully equipped audio and video production facility designed by active recording professionals and located in the north of the party-island Ibiza. Our goal is to teach students how to explore the world of sound and transform their passion for music and audio into a dream career. All teachers are well-known producers who perform many times at major, prestigious, global parties and festivals around the world. Welcome to your future.

COURSE:

At SFS we will be offering 2 different packages for you to choose from.

-The first option is a three-week course, where you will be professionally guided into the world of music production. A list of what you will be learning is added below. At Sound Farm Studios we smoothly blend together the theoretical part of the courses with plenty of practice.

-The second option is same as above, but will be extended by one week, in which you will also learn about post-production. We guarantee that you will go back home with your first self-made track. We will also provide you a unique sample packs (all samples will be by the legendary Etnica band). All the software you need is here for you to use, so all you need to bring is your own laptop.

SFS Main Room
